## Education

---

### Acropolis Technical Campus

Bachelor of Engineering, Computer Science (CGPA: 7.5)

Indore, Madhya Pradesh

Aug 2018 – May 2022

## Experience

---

### Infocrats

Oct 2025 - Present

#### .NET Developer

- **Developed and maintained scalable RESTful APIs using ASP.NET Core**, implementing business logic and data-processing workflows to support reliable application functionality.
- **Designed and optimized MySQL stored procedures** for complex querying, filtering, and data manipulation, improving database-side processing efficiency application responsiveness.
- **Implemented multi-layer filtering across service and database layers**, improving data accuracy, reducing unnecessary data processing and strengthening application performance.
- **Enhanced dynamic frontend functionality using JavaScript**, implementing real time UI updates and robust form-validation workflows to improve usability and input reliability.
- **Managed Git-based development workflows**, including branching, source-code management, and collaborative development across application changes and releases.

### Infosys

Sep 2024 - Feb 2025

#### Systems Engineer

- **Developed an end-to-end full-stack healthcare application using ASP.NET Core and Angular**, supporting patient registrations, doctor appointment scheduling, and automated fee-calculation workflows.
- **Designed and integrated RESTful APIs with SQL stored procedures, scalar functions, and LINQ** enabling structured business-logic execution and efficient database interaction.
- **Built reusable Angular components using Reactive Forms and HttpClient**, implementing dynamic form handling and API-driven workflows for a responsive user experience.
- **Implemented database-first architecture using Entity Framework**, establishing structured data-access workflows and reducing manual database integration effort.
- **Implemented secure API integration and validation mechanisms**, supporting reliable communication between frontend, backend services, and database layers.

### Yash Technologies

July 2022 - Dec 2023

#### Trainee Engineer

- **Coordinated project activities across engineering workflows**, ensuring adherence to defined engineering standards, project timelines, and regulatory requirements.
- **Analyzed project deliverables and engineering documentation**, identifying discrepancies and supporting timely resolution to maintain accuracy and consistency.
- **Collaborated with project stakeholders to track deliverables and resolve identified issues**, supporting smooth execution of project activities and adherence to quality expectations.

## Technical Skills

---

**Languages & Frameworks:** C# , .NET 9.0, ASP.NET Core, LINQ, Angular, Javascript, HTML, CSS

**Databases:** MySQL, HiveSQL, Stored Procedures, Scalar Functions

**Developer Tools:** Git, Visual Studio Code, Swagger, Postman, REST APIs

**Concepts:** MVC, Dependency Injection, CORS, Databse-First Architecture

## Certificates

---

- Microsoft Azure Fundamentals AZ-900
- Microsoft Azure Developer Associate AZ-204
- Infosys Wingspan .NET Core Advance
- Udemy - Build ASP.NET Core (.NET 8)
